BOVINE JOHNES DISEASE (BJD) INFORMATION SESSION FOR CHANGES STARTING JULY 1, 2017

A new approach to management of Johne's disease (JD) in cattle commenced nationally from 1 July 2016, moving from a management structure regulated by state governments to an on-farm risk based approach.

This information session is aimed at informing producers of the changes to the national BJD management program and what is required of producers moving forward.

Where: Naradhan Public Hall

When: Friday, June 23 2017

Time: 12PM

Presenters: Elizabeth Braddon and Rahul Shankar – District Veterinarians

There is no cost associated with attending this event.

RSVP is not required to attend this event.
