APPRECIATION

The committee of the Lake Cargelligo Show Society wishes to express its appreciation and thanks to the people of Lake Cargelligo and District who have over the years helped make our Annual Show a success. We still need your help, and trust that you will tell us if you have any helpful suggestions as to improving our show or if you care to participate as steward or helpers. To donors of special prizes and trophies, we say many thanks for your support. My appreciation and thanks to our Committee, Show Stewards, Secretary and Treasurer, who have been so generous with their time, energy and assistance to help make our show successful. We invite the

general public to visit our show this year, as we have endeavoured to make it enjoyable for all.

CHAMPION RIBBON - BEST EXHIBIT IN COOKING

Section 1-31.

32. THE ASC RICH FRUIT CAKE COMPETITION-PRIZE \$20.

The following recipe is compulsory for all entrants:

Recipe for A.S.C. Rich Fruit Cake-Round or Square.

Here's what you need.

- 250g (8oz) Sultanas
- 250g (8oz) Chopped Raisins
- 250g (8oz) Currants
- 125g (4oz) Chopped Mixed Peel
- 90g (3oz) Chopped Red Glace Cherries
- 90g (3oz) Chopped Blanched Almonds
- 1/3 cup Sherry or Brandy
- 250 (8oz) Plain Flour
- 60g (2oz) Self Raising Flour
- ¼ teaspoon Grated Nutmeg
- ½ teaspoon Ground Ginger
- ½ teaspoon Ground Cloves
- 250g (8oz) Butter
- 250g (8oz) Soft Brown Sugar

- ½ teaspoon Lemon Essence **OR** Finely Grated Lemon
- ½ teaspoon Almond Essence
- ½ teaspoon Vanilla Essence
- 4 Large Eggs

Here's what to do:

Mix together all the fruits and nuts and sprinkle with the sherry or brandy. Cover and leave for at least 1 hour, but preferably overnight. Sift together the flours and spices. Cream together the butter and sugar with the essences. Add the eggs one at a time, beating well after each addition, and then alternately add the fruit and flour mixtures. Mix thoroughly. The mixture should be stiff enough to support a wooden spoon. Place the mixture into a prepared tin no larger than 20 cm (8") and bake in a slow oven for approximately 3 ½ - 4 hours. Allow the cake to cool in the tin.

Note: to ensure uniformity and depending upon the size it is suggested the raisins be snipped into 2 or 3 pieces, cherries into 4-6 pieces and almonds crosswise into 3-4 pieces.

Winners at country shows will each receive a cash prize of \$20 and will be required to bake a second "Rich Fruit Cake" in order to compete in a semi-final to be conducted by each of the fourteen Groups of the Agricultural Societies Council of NSW.

The fourteen winners at Regional level will each receive a cash prize of \$30, and are required to bake a third "Rich Fruit Cake" for the final judging at the Royal Easter Show where the winner will receive a cash prize of \$100.

Note: In any year an individual competitor may participate in only one Group Final representing a Show Society and, consequently, may represent only one Group in the subsequent State Final

ASC WOOL ARTICLE/GARMENT COMPETITION.

THREE DIFFERENT TYPES OF WOOL ARTICLES AND/OR GARMENTS CONDITIONS

- For the purpose of this competition the following definition apply:
 - a. **Garment:** an item that can be worn eg. Dress, jacket, scarf, hat.
 - b. **Article:** a utility item that is not worn but can be used in the home eg. Blanket; with an outfit eg. Bag; for amusement eg. Toys; as a decoration eg. Picture, etc.
- The **whole** article and/or garment must be constructed of, and contain a minimum of, **80% wool**.
- Exhibits (articles/garments) may be knitted, crocheted, sewn, felted etc and must be hand crafted (use of sewing machine is permitted).
- **A Sample of the yarn, fabric or fibre with label must be attached to each item making up the exhibit.** If a label is not available as a hand spun/felted, a handwritten label with relevant details and sample will suffice.
- An exhibit in this competition may consist of the work of one individual or a group of individuals, or an organisation.
- All three article/garments must have been completed within the 12 months prior to the local show and made by the exhibitor/s.
- An exhibit having won at a local show may be exhibited (the same three article/garments) at the Group Final. The winning exhibit at the Group Final is then eligible to compete in the State Final.
- An exhibitor is only eligible to represent one Society at Group level and one Group at State level.
- An exhibit (article/garment) that has previously competed at Group level is not eligible to compete again.
- If this class is not scheduled or attracts no entries at a local show, the Show Secretary (or delegate) may select three suitable individual exhibits and with the exhibitor's permission, enter them in the Group Judging as an exhibit representing the particular Society concerned.
- It is the responsibility of the Group Secretary and winner to co-ordinate the transfer of the winning entry to Sydney for the State judging.

SECTIONS :

1. KINDERGARTEN

The bird sat in a tree.
It was staring at me.

2. YEAR 1

Often called a Pink Cockatoo,
The Major Mitchell is named after a
Cool Dude.

3. YEAR 2

Kookaburra sits on the old gum tree,
Merry merry king of the bush is he.
Laugh, Kookaburra, laugh.

4. YEAR 3

Magpie trio strutting along
You always look so big and strong
Elegant you look as you give a twirl
You look so regal you must be a girl.

5. YEAR 4

A wonderful bird is the pelican
His bill can hold more than his belican
He can take in his beak
Food enough for a week
But I'm damned if I see how the helican.

6. YEAR 5.

From lamp of sun he hides himself away
And in timbered country rest during the day
And his camouflage so good 'twould seem that
he
Is decaying wood that fork from branch of tree

7. YEAR 6.

In mid-heaven's world, between earth and sky
The life we call Eagle is high gliding by.
Hollow bones, honed to perfection in flight
On winged journey skyward, with eagle-sharp
Sight.

HANDY HINTS.

To help and encourage exhibitors, the following "Handy Hints" are offered. The list of suggestions is not exhaustive in any Class, but some clues are given on how to prepare exhibits and to catch the approving eye of the judge.

The hints have been compiled from suggestions by Show Judges, including Land CWA Judges and successful exhibitors over many years in Show and CWA competitions.

The most important "handy hint" to pass on to all exhibitors at Shows is to read carefully and adhere to, the instructions at the head of each Class, and also the General Regulations earlier in the Schedule. Also, ensure that your entry matches the description of the relevant Section which you are entering in a specific Class.

KNITTING AND CROCHET

- Evenness of stitching and tension through the garment is the main Judging criteria. Top knitters will not leave any sign of needle marks where they leave off. Choosing the right needle size for your wool ply is very important in getting the tension right.
- The inside of the garment must be as neatly finished as the outside. There should be no loose threads. NO knots and the seams must be neatly finished in the same yarn as the garment and not bulky. The single worst fault with most knitting is that the inside finish is not neat enough.
- ALL garments should be worked in the one fibre - eg, for a woollen jumper, seams and all finishing must be in woollen yarn, including buttons (don't sew on with cotton). In cotton crochet, all finishing in cotton etc.
- The more difficult patterns do not necessarily win more prizes. Tricky patterns can be easy to mess up and errors will glare at judges. With a simple all-over stitch (eg. stocking stitch) it can be more difficult to obtain a perfect look and this may be looked upon more favourably by judges.
- Fine crochet must lie flat with no puckering or buckling - it must have an even tension throughout with no "leggy" or loose stitches.

NEEDLEWORK

- Machine work must be straight and parallel and finished neatly. Seam finish is very important as are hems - all must be exactly straight and the seams must intersect in exactly the same spot.

GENERAL

- Use safety pins rather than ordinary sewing pins to attach tickets to your garment. This prevents pulling threads with loose pin ends.

HOME BREW

- All labels should be washed off bottles.
- Bottle tops must be clean and unmarked. That is, no manufacturer's marks and no exhibitor's marks. If you have a few entries in the one category we suggest you wrap or lightly tape your own identification to the bottles when entering them. This will then be removed, and each bottle will be given a gummed entry label bearing your entry number. At the time, write down the

entry number for your own records against your list, so that after judging, you will know which "brew" was which.

- Make sure you use a separate entry form for each entry.
- Points are awarded by the judges for Clarity, Colour, Aroma, Flavour, Head and Body. The first observation the judge makes is for Colour with the judges being able to tell at once if the beer is for example, cloudy or not a true colour. Half of the total points awarded are for Flavour.

AGRICULTURAL PRODUCE

The judge is looking for a quality which will fulfil its market e.g. Hay is for fodder so the most important points are attractiveness and palatability, smell should be sweet, fresh and untainted. It should be soft and look good enough to eat.

- Produce should not be tampered with, but "as grown". For example, don't remove leaves, heads, and roots or pick out any foreign weeds or seeds in the sample. In classes for a sample of grain, it should be presented for judging as harvested. Judges expect a certain degree of contamination and imperfection in the seed, and as long as the sample is within board requirements it will not be penalised. A judge knows what "as harvested" looks like and may even frown upon a sample which looks picked over.
- In sections for growing crop samples, height is not as important a consideration as some may think. The main criteria is always yield potential.
- Pasture samples are judged on composition, density, pureness to type and yield as far as dry matter goes.
- Your entry should be of an even size and quality.
- Freedom from disease is vital in show classes.
- Presentation is very important. Label samples neatly on a small piece of cardboard' for example giving the crop name and variety. The spirit of showing is providing an exhibition for the public, many of whom may not know wheat from barley or triticale.

FRUIT AND VEGETABLES.

- The main clue is the time of picking. Do not allow them to over mature in aiming to go for size.
- Density and richness of colour is the number one judging points, with size next, separating otherwise equal exhibits.
- Most vegetables are best picked on the day of judging to ensure that crisp, extra fresh look and touch even one day in the fridge can affect their freshness although some, such as lettuce are alright in a crisper. Some can be picked earlier at their best and stored for showing, for example, a good pumpkin.
- Collections of the one. fruit or vegetable should be even in size and shape - choose your selection as close to the one size as possible - a small sample of the same size will score better than a lot of uneven produce.
- Heads, such as cabbage and lettuce, must be dense and firm-hearted and cauliflowers should be white and with no spread in the florets, which denotes over-maturity.

- Root vegetables must be crisp and bright with no wood in the centre. . Peas and beans must be very young and crisp. There is a tendency by some gardeners to leave them on the vine too long. They should be a bright green and have a denseness of colour.
- Rhubarb should also be crisp with no sponginess or porosity in the stalk (also a sign of over-maturity or lack of freshness).
- When exhibiting citrus fruit don't be surprised by seeing a smaller exhibit win - the main judging points are after the fruit is cut - the juiciness and the skin depth (the thinner the better). Most over large fruit is thick-skinned and often dry.
- Externally the fruit (citrus) should be smooth skinned and blemish free and again your sample should be even sized, perfectly round and bright coloured. The secret to citrus is often the watering, although some varieties and some trees are better producers than others. It would be wise to check your citrus by cutting a specimen before showing.
- Eggs are another popular Section and depending on the judge, these are judged in a couple of ways. On looks they will be judged on shape and on evenness of samples, as well as size and colour. Some judges weigh the samples with weight, rather than size a telling point and some will crack an egg to check on yolk size and colour and freshness.
- Eggs must not be washed before showing as this removes the natural bloom - to clean them, use a "just" damp cloth gently.
- ABOVE ALL, the entry must be the produce of the exhibitor's own garden.

COOKERY.

- Cookery has enough "Handy Hints" for showing that a full book would be required. Just a sample is shown below.
- The main judging points observed are, the overall appearance; the cut cake; the smell and taste.
- OVERALL APPEARANCE. Above all the exhibit must look delicious after all a vital aspect is edibility! To be a 'top' exhibit it should look perfect. This includes:
 - The size of the mix must match the tin size, eg, a minimum of two inches thick (5cm) for butter cakes. Wire rack marks on a cake do not enhance its appearance. . Ensure the cake cooks flat on top by concaving the centre before cooking (i.e., have the outside of the cake higher than the centre which rises more during cooking). The cake may taste delicious but could fail on appearance.
 - Greasing / lining / flouring of the tin are crucial to the look of the cake which must be exhibited as it comes out of the tin, untrimmed.
 - If iced (and do not ice unless it is specified in schedule) then make it a neat even thickness, with no drips down the sides.
 - Small cakes, biscuits and slices should be dainty - a common fault is making them too large, especially lamingtons (4cm cubes, the ideal size) and slices (3cm x 5cm).

THE CUT CAKE.

Judging includes how it cuts (preferably without the use of a bandsaw) and its appearance when cut.

Points to consider:

- Texture - this should be fine, even and consistent throughout with no air bubbles. Cooking time is crucial to gain the best look when cut.
- Cakes with fruits and nuts won't cut easily if the pieces are too large cut your dates, nuts etc. small and evenly.
- Fruit cakes won't look even throughout if the fruit sinks to the bottom during their long cooking time. Fruit must be totally dry when added to the mixture even if it has been soaked. Dry and coat with flour (NB - use flour from the recipe, not any extra).
- Colour intensity must be matched in marble and rainbow cakes. If the chocolate is dark, the pink should be dark - if you use a pale delicate pink, then the chocolate should also be light.

SMELL AND TASTE.

Taste is the main decider in the Judges' books. The cakes must have a good flavour, true to type and strangely this can vary markedly within a class, eg, a banana cake can look good but if insufficient, tasteless or overripe (black) bananas are used, the taste will suffer. The smell goes hand in hand with taste and may even be the decider if two entries are very even in other aspects.

- An extra point for sponges is their "sponginess" for want of a better word. They must retain their shape when pressed, squashed, squeezed, wrung, bounced or whatever. Another "sponge point" - sandwich with jam, and not too thickly, never with cream - imagine the taste (not to mention the appearance) after a day or two on Show.
 - And from a champion cook of 25 years - most cooking should be done the day before the Show to give them their best chance. Start early in the morning and cook until it is all done or you collapse, whichever comes first!
 - Some can be done earlier to save time the day before. Lamington cake is better cooked a day ahead of icing; date and nut loaf or roll, dampers and boiled fruit cakes can be done two days early, also any biscuit or slice entries.
 - Orange cake flavour is very important and this is influenced by the oranges used. It is worth trying a fruit before using it in show cooking.
- From a successful exhibitor and judge of 30 years:**
- The guidelines of The Land Cookery Competition form a good basis.
 - Scones must be cooked separately on trays, not touching, so that each scone is a perfect round shape. Shape is a very important judging point.
 - In collections of biscuits and slices, make sure your collection is of distinct varieties and mixes, eg, a distinct biscuit collection may include an Anzac, a melting moment, shortbread and a macaroon. Four of the one mix with four toppings or fillings, would not be suitable.
 - Slices and biscuits should all be even in size and shape and not too large (see earlier note): Don't overcook your biscuits - "half your competitors will, so you are in front already!"
 - And a quick tip for fruit cakes - to get an even, flat top (many are bumpy) - rub your wet hand over the top of the mix before cooking.

PICKLES, PRESERVES.

- Take more care with keeping lids clean. They must be plain, without handwriting OR commercial printing. Paint the tops or use contact for example.
- Examine tops of exhibits for mould.
- Jars should be filled to just above the neck to the lid-line so there is no gap showing between the lid and the contents. But do not over-fill the jars.

FILLINGS FOR TARTS AND CAKES

- Fruit butters should be firm - as in butter.
- Sauce should not be thin but a firm sauce texture.
- To add more flavour to butters, use the juices of fresh fruits. Also the seeds of the passionfruit are allowed.
- Lemon butter can be wincingly tart if too much juice is used.

PRESERVES

- Fill jars to lid-line and pack firmly.
- Over-ripe fruit is not suitable to preserve.
- Ensure lids are properly sealed. Fruit or vegetables should be covered in syrup and jars filled to lid level - otherwise contents will darken on top.

PICKLES, RELISHES, CHUTNEYS

- Fruit mince to be cut in medium size - coarsely minced fruit.
- Check definitions of difference between pickles, relish and chutney as consistency is vitally important in these exhibits and can detract from the result even if the taste is spot on. Take care not to make them too thick or too runny - sauces of pouring consistency, relishes of spreading consistency, etc.

JAMS

- Rind of citrus should be well cooked before adding the sugar. Make sure the inside of the pan, if aluminium, is polished clean and not dark as this tends to make jam dark.
- Judges have observed that the peel could be cut finer in marmalade jams and many exhibitors had not checked the consistency of their jam exhibit.
- Some jams err in having too much fruit, eg, in marmalades. A tip with them is to use a potato peeler on the rind and then snip the narrow and thin slices with scissors.

Beware too with grapefruit jams or marmalades - the fruit can sometimes be very bitter and the jam made from them is then basically inedible. . Don't even bother exhibiting old jam - it will have lost its taste. Flavour can vary markedly between batches of stone fruit and varieties and the fruit quality controls the jam quality.

FLAVOUR is the most important element of all jams and preserves, Always taste-test your own work before exhibiting. Degree of ripeness has a big influence on flavour. Fruit must be uniformly ripe, not green and not over-ripe. AND, do consider the judges' taste-buds. You will not be doing yourself or the judge a favour if overly hot or spicy ingredients are used. If this is unavoidable, then please note this on your entry label to give fair warning to the judges!

FLOWERS

- Pick most show entries on judging morning - very early (or late on the evening before) and put straight into

water up to their necks - then take inside for sorting into individual jars. It is a good idea to select one entry at a time from your list - much better than picking everything, taking it inside and then trying to choose what will go in each Section.

- There are some exceptions to this rule. pansies are better if picked when totally dry - early in the morning the dew can stain the petals.
- Iceland poppies can be picked early as long as they aren't too advanced. In warm weather they are best picked as buds and they will be open for showing one to two days on.
- Carnations open up more attractively if picked early, a day or two, and allowed to open indoors.
- Some cuts may be better if "conditioned". For example, one very successful exhibitor scalds the stems of poppies and dahlias by pouring boiling water on them for 60 seconds to prevent them dropping.
- Don't add anything to the-water - as long as the flowers have a good drink when they are picked most will last without additives.
- The stage of bloom at cutting time is critical. The flowers should be fully out at judging, but JUST!
- Judges look for different things with flowers and it is not always size. Symmetry is very important - an even shape, the same on both sides, and blemish-free blooms.
- Geraniums are judged on the shape of the head, which should be a true round shape, dense with flowers, and showing some foliage.
- In a Section such as that for a cut of flowering shrub, it is the length of the flowering head that is important, relative to others of the same variety.
- For individual flowers such as gerbera, size is an important consideration.

FLORAL ART

- Some successful exhibitors in Floral Art suggest that you read the Schedule three or four times and then put it aside for a while and "sleep on it" - the inspiration will come.
- Floral Art Sections are in titles - they are an art form - and the title suggests a style - the finished article is a whole picture, a blend of shape, size, colour of container and contents.
- The first element is the container and it must suit the style. "Bold and Beautiful" for example would not suggest a shapely, slender container.
- The next important element is the line material, or non-plant material that provides the background, the emphasis being on "line".
- A "no-no" is for any needle aid to be visible. Arrange foliage to hide it.

POULTRY

- Clean under scales on legs usually eg. with a pin.
- Shine in feathers come out by using Talc Powder.
- Combs can appear a brighter RED by using baby oil.
- Birds can be washed with soap and water.
- A natural shine is bought out by feeding them different grains like Red Hen Scratch Mix.
